NEW BUSINESS

Rick Villani and Len Beaudry in at 2:35 to discuss our ongoing problems with our HP computer printer and the problem that Patriot had doing a back-up for us on July 3rd.

Len informed us that he does a whole server back-up which includes the operating system, sequel and the data base daily. He gives a copy of that back-up to Priscilla weekly. He states there is no way for us to lose our data or have the integrity of our data destroyed. The Assessors has Patriot backing up our data monthly because our computers have a lot more problems than they ever before. The Board is very concerned with our data's integrity and what the cost would be to the town if we were to ever lose the data or if it ever became corrupt in any way.

Joseph Niro questioned Len on why we continue to have printer problems when he comes in every couple of days to fix it and the fix only lasts for a couple of days. Len stated he hoped he would be able to finally fix the problem. He felt it might be the mother board and he because he is so stretched he is unable to take the time needed to determine the error. Joe Niro asked why he did not tell the office that he thought it might be the mother board so they could have repaired the printer earlier, before turning money back to the town at the end of the fiscal year. Len stated he should have but did not. Priscilla will call Retro-Fit to see if they are able to fix the printer and at what cost.

Rick and Len out at 3:05 p.m.
