Mr. Mainini advised the Board that a Commercial Wastewater Connection Permit should be issued for Milford Water Company at 66 Dilla Street provided that it is for men's and women's bathrooms and washroom fixtures as well as floor drains in the washrooms only. No processed water can be entered into the Milford Sewer System. Based on Mr. Mainini's recommendations, Mr. Morelli made a motion to approve the Commercial Sewer Connection Permit, seconded by Mr. Cenedella and made unanimous by Mr. Lioce. A letter will be sent to Milford Planning Board approving the Definitive Plan for 66 Dilla Street and advising them of the stipulations.

Mr. Cenedella made a motion to approve a Residential Sewer Connection Permit for D & F Afonso at 29 North Vine Street, seconded by Mr. Morelli and made unanimous by Mr. Lioce.

Before the next Sewer Connection Permit for 13 Western Avenue was brought up for a vote, Attorney Joseph Antonellis, Developer Brad Wright and Mr. Hutnick of Andrews Surveying approached the Board. Mr. Wright was proposing to build a house at 13 Western Avenue and tie in the sewer through a 255' easement and connect the sewer for his project on Cunniff Ave. After much discussion, it was determined that Mr. Wright should tie into the existing sewer line 135' up Western Avenue in the street, place a manhole at the property line and provide a revised plan to do so.

Mr. Morelli made a motion to grant a Sewer Connection Permit for 13 Western Avenue in the street provided that Mr. Wright provides a revised plan that meets with Mr. Mainini's approval and places a manhole at the property line that meets with Mr. Mainini's approval also, seconded by Mr. Cenedella and made unanimous by Mr. Lioce.

We are still holding retainage and several line item payments from Gravity Construction until the work is completed.

Mrs. Cavaliere informed the Board that Tata and Howard is still working on the permit to sell water to National Power Company.
